

BLENDING SOLUTIONS EUROPE

**Together We Formulate  
Your Success**

# Together We Formulate Your Success

**Brenntag Blending Solutions:**  
Our vision is to set the standard in Blending Services and to become the preferred strategic partner for our customers in Europe.

BLENDING SOLUTIONS EUROPE

Brenntag is the global market leader in full-line chemical distribution. Linking chemical manufacturers and chemical users the company provides business-to-business distribution solutions for industrial and specialty chemicals globally.

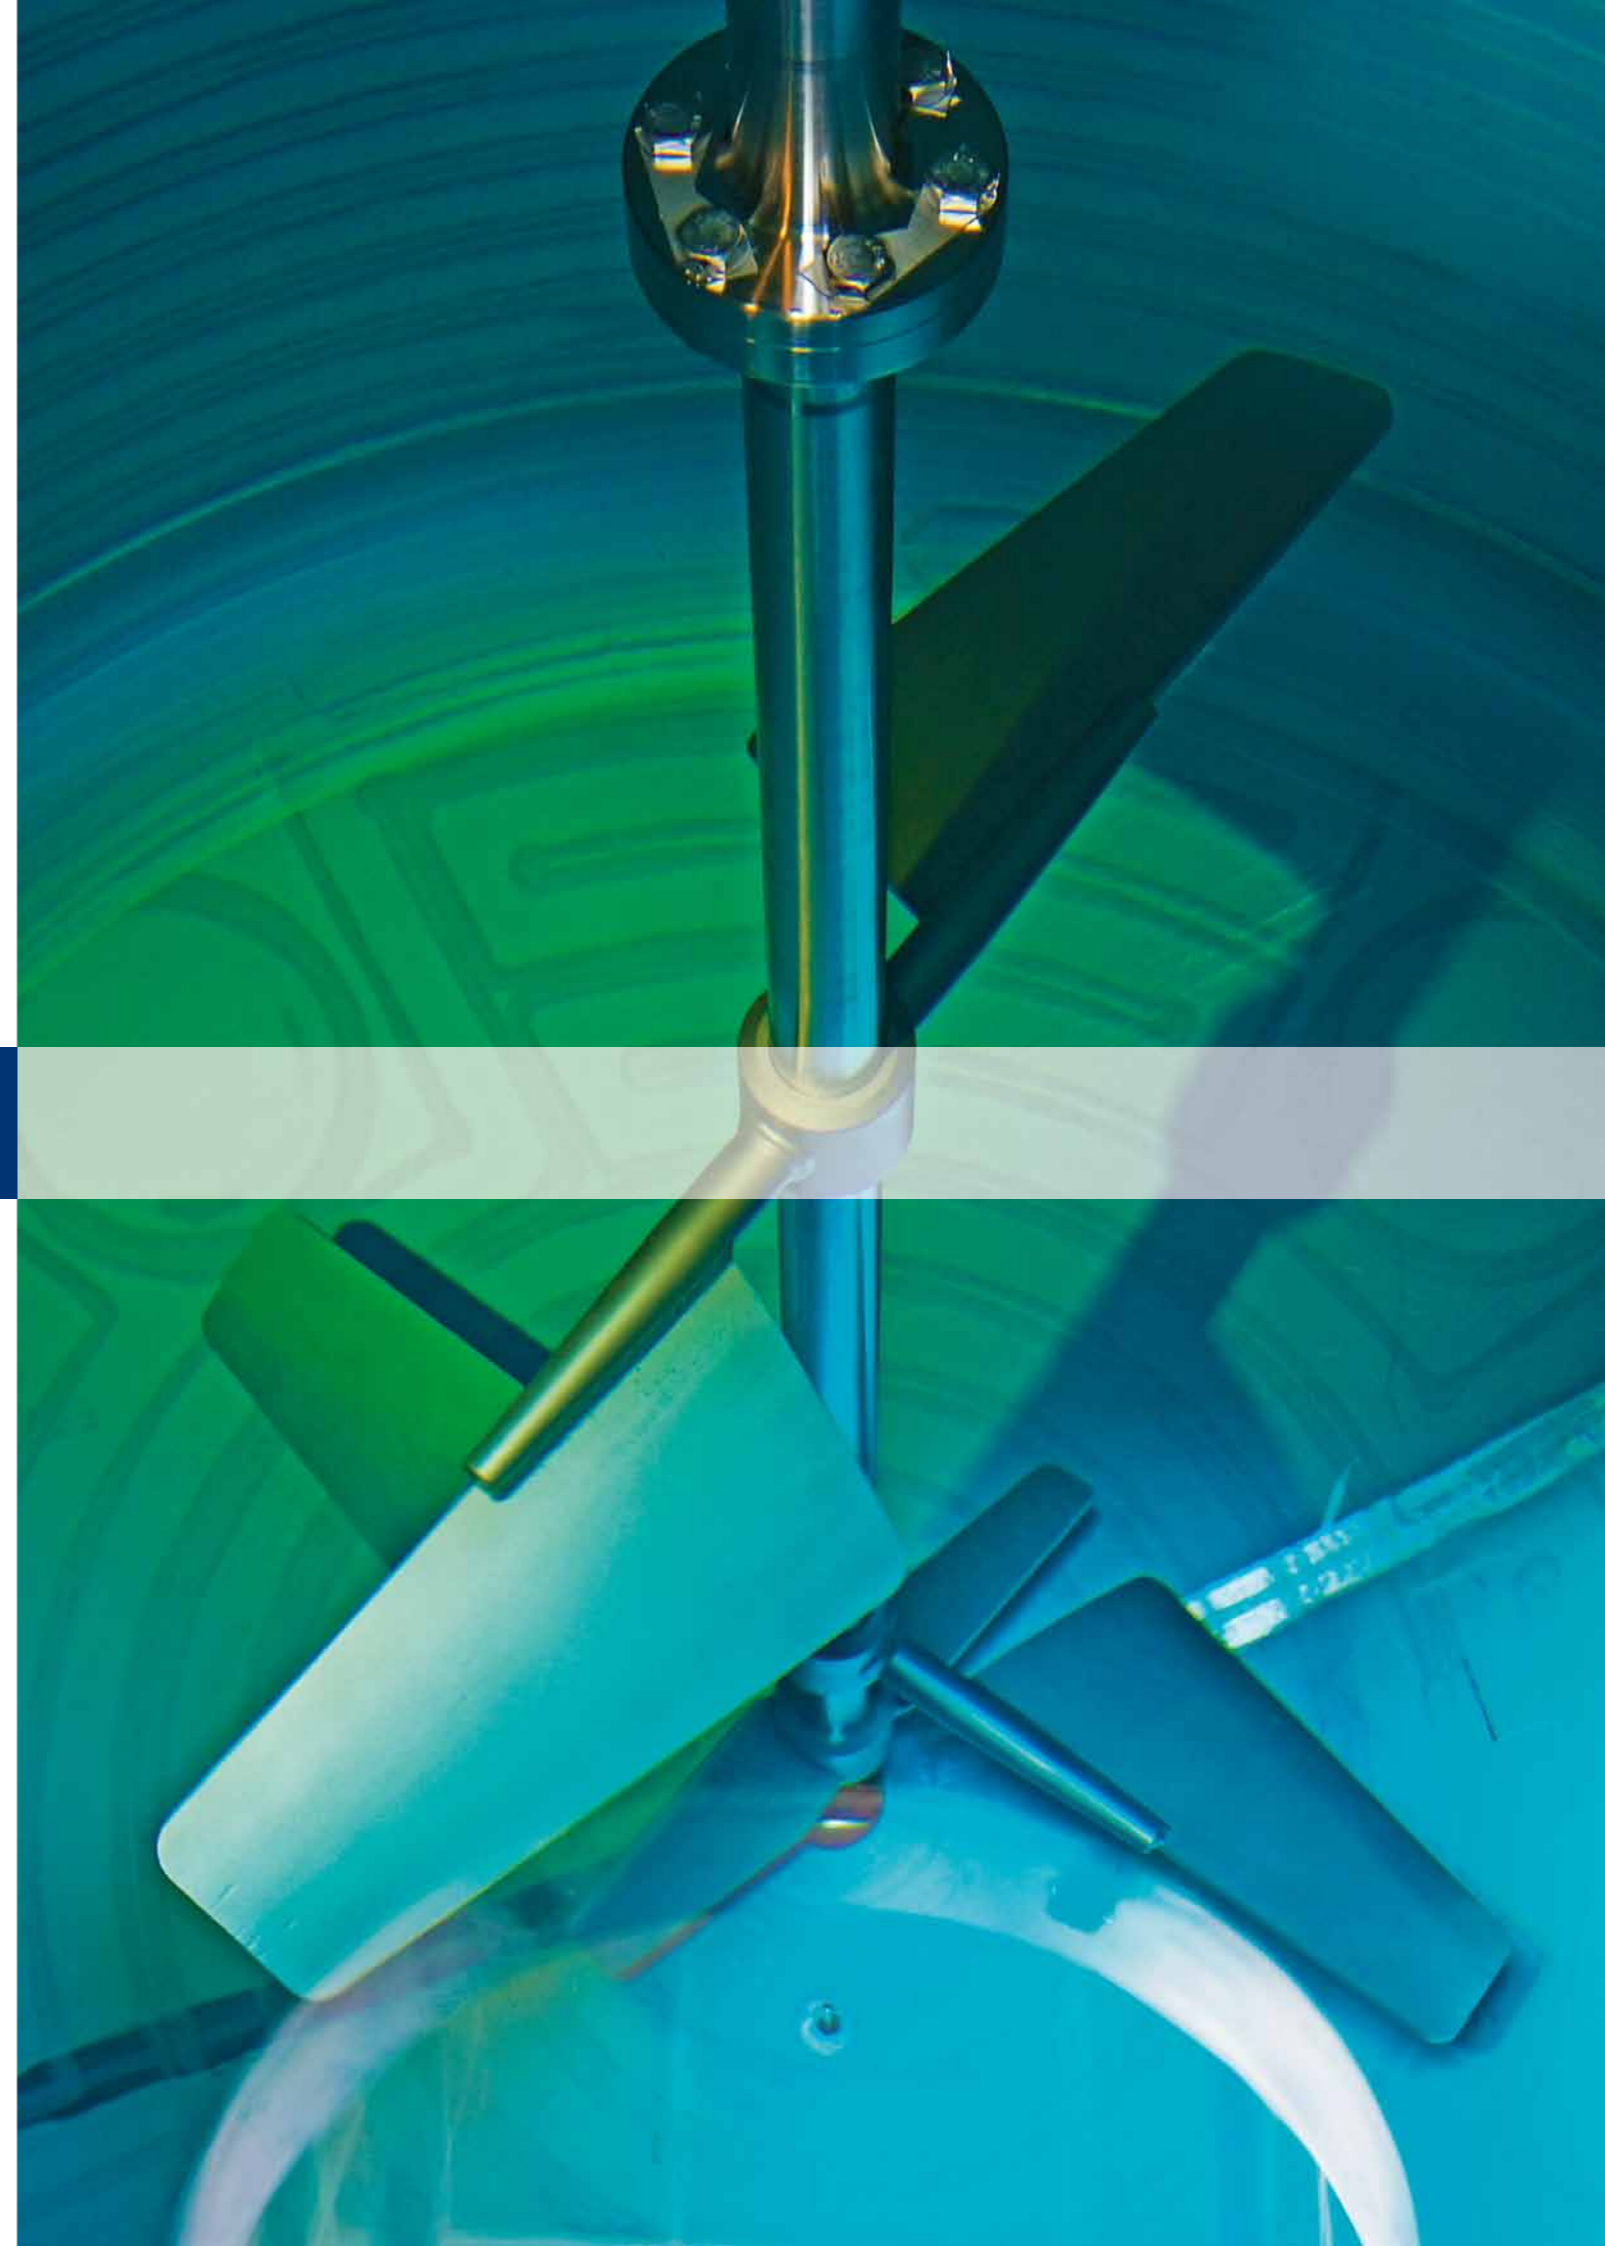

We are strongly committed to safety and the international Responsible Care Initiative. Besides applying high standards, we constantly have our safety procedures audited and updated by external consultants.

Brenntag is committed to meet the requirements of REACH, and we would like to do this in close cooperation with our customers and suppliers. Therefore, we have comprehensively trained our sales and sourcing teams on the technicalities of REACH. They are able to answer the most important of your questions and assist you as needed.

With value-added services such as Blending Solutions, Brenntag aims to be the partner

of choice for our customers and suppliers. Therefore we established a pan-European dedicated team of experts in the field of Blending Solutions. With more than 50 blending facilities across Europe, Brenntag has over 2,400 of its own formulations and manufactures more than 10,000 customer specific blends. Industries covered include Coatings, Paints, Adhesives, Construction, Chemical Synthesis, Metal, Water Treatment, Cleaning, Paper, Rubber, Automotive, De-Icing, Oil and Gas, Food and Nutrition as well as Animal Nutrition.

By removing complexity and adding value, Brenntag Blending Solutions enables customers to focus on their core business. Based on our shared culture we provide added value in the business fields of Sourcing, Technical Expertise, Quality Management as well as Logistics and Infrastructure.

# Success begins with choosing the right partner

## BLENDING SOLUTIONS EUROPE – SOURCING

We strive to deliver the optimum combination of product quality and competitive pricing. Our aim is to provide customers with innovative solutions and new opportunities. Confidence and security of supply, are the key drivers for developing successful, long-term partnerships.

Our customers benefit from the knowledge and experience of our global sourcing network. Comprehensive knowledge of the markets enables us to identify trends and the right supply partners. Based on a combination of trust and performance, we establish strategic relationships with suppliers.

We leverage our purchasing power and reputation to secure best value and we have direct access to an extensive portfolio of high quality raw materials and packaging solutions. Together we identify the optimum sourcing solution. We provide total compliance to regulations and safety (REACH, sustainability, ADR, etc).

# Attention to detail delivers quality you can trust

## BLENDING SOLUTIONS EUROPE – QUALITY MANAGEMENT

Our passion is to develop a deep understanding of our customers requirements to deliver the right solutions. We endeavour to constantly improve our production processes and quality of customer service. Our objective is to exceed customer expectations.

Our team of highly educated experts supports customers, when developing new opportunities. Ongoing investment in training ensures that we stay informed about new developments. We fully understand and respect the requirement for total confidentiality (formulations, intellectual property, etc.).

Full compliance to Quality Management Systems and Traceability requirements are core performance drivers. Clear and precise documentation come as standard and can be adapted to meet customer-specific requirements. We are committed to constantly improving our HSE standards.

# Setting standards with knowledge and creativity

## BLENDING SOLUTIONS EUROPE – TECHNICAL EXPERTISE

We are specialist solutions providers and have the knowledge and creativity to understand and meet customer challenges. By listening carefully to the needs and objectives of our customers, we jointly develop the best solutions to match every requirement. Our aim is simple: To be the market leader and to set the standards.

We have a highly trained team of technical experts (chemical engineers, operational personnel and laboratory technicians). We have direct access to our European network of application specialists, who are dedicated to specific industries. Sharing the best practices on a European level, ensure we work together as a team and achieve common goals.

Centres of competence and an extensive network, provide flexibility and ensure we deliver faster and more effective results. Detailed feasibility analysis of potential projects, ensures that customer requirements and expectations can be met. We provide consistent and sustainable production processes, which ensure long-term partnerships.

# A network you can rely on

## BLENDING SOLUTIONS EUROPE – LOGISTICS & INFRASTRUCTURE

We manufacture close to the point of delivery in order to provide the most effective supply-chain. Our objective is to reduce complexity and to add-value. We meet customer challenges by developing logistic solutions.

Experienced personnel and effective order processing systems, facilitate 'On Time In Full (OTIF)' deliveries. Integrated teams, across many areas of specialisation, provide the necessary flexibility to deliver optimum results. We are specialists in logistics and our customers benefit from this knowledge and expertise.

Modern and dedicated storage facilities, provide multiple warehouse solutions (from sourcing to delivery of end products). Our geographical coverage and close cross-border cooperation optimises logistical solutions and synergies. Our broad range of blending capabilities provide increased opportunities to extend successful relationships.
